

May 24, 1983

LB 628

is the only motion to override which includes salaries.

SENATOR HIGGINS: But someone could offer another one?

PRESIDENT: Presumably so.

SENATOR HIGGINS: Thank you, Mr. President.

PRESIDENT: Senator Von Minden, did you want to speak in this issue? There is only one more light.

SENATOR VON MINDEN: Mr. Speaker, members of the body, I don't know if I really want to speak on it or not. I would just like to say I think it was very poor judgment of the Governor to sign the bill giving the judges the 20% raise when they already made over \$40,000 and poor judgment vetoing this bill. But I just want to say I don't think the override should come very hard. There was 25 people here who voted to give the judges' 20% raise and I think they would certainly go for the override and want to give the little peons a 2.5% raise. That is about all.

PRESIDENT: That is all the speakers that I have. The other speaker that I have wants to ask the question so before I recognize Senator Wesely to close I want to announce that Senator Marsh (Gavel), a little order in the Chamber please, Senator Marsh has guests by her side under the South balcony, Irma Warta of Lincoln and Magdalene Rosene of Chicago, Illinois. They are representing the United Nations Association of the United States and they have just presented to Senator Shirley Marsh a Distinguished Service Award in appreciation of her public service for observance of United Nations Day in 1982. So welcome to the Legislature, ladies. Will you stand and be recognized. If there is no objection, the Chair will recognize Senator Wesely to close on his motion.

SENATOR WESELY: Thank you, Mr. President. While I know the cards are stacked against me, it is going to be a very difficult thing to come up with 30 votes but I felt from the very beginning that the salary increase called for in the budget was justified, that the elements in this override are all I think responsible and I am willing to take whatever political heat may result from standing up and trying to promote what I think is the right thing to do. I think if it calls for an adjustment in our tax rates to provide for this, I think it is in the best interest of the state because in the long run it is going to benefit us all from having adequate fair salaries for our employees and our University faculty. One of the things I just handed out in supplement to the previous handout would show I think
